### **DETAILED ACTION**

1. Claims 1-13 are pending.

#### ***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/30/05 has been entered.

#### ***Response to Arguments***

3. Applicant's arguments, filed 12/30/05, with respect to claims 1-13 have been fully considered and are persuasive. The §103 rejection of claims 1-13 have been withdrawn.

#### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2134

6. Claim 7 is unclear and should be rewritten in independent form. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: The communication between the content provider and the rendering device.

***Claim Rejections - 35 USC § 101***

7. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

8. Claims 1-7 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Page 3, lines 31-33 of the specification state "some features indicated in the drawings are typically implemented in software and as such represent software entities such as software modules or objects" causing the claims to lack a structural relationship to be entirely implemented in software and not include an underlying medium.

9. Claims 8-13 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 8-13 are directed to functional descriptive material and lack the underlying physical article or object to constitute a manufacture. The definition of a computer program product is not disclosed in the specification to include an underlying medium in combination with code or instructions of a computer program product.

***Allowable Subject Matter***

10. Claims 1-13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph and 35 U.S.C. 101, set forth in this Office action.

11. Claims 8-13 would be allowable if rewritten to contain a computer readable medium. However, the applicant must provide support in the specification for such an amendment.
